

## EnAIP Toscana Formazione e Lavoro

Enaip TFL is based upon a structure of local and regional branches operating independently all over the Italian territory ([www.enaip.it](http://www.enaip.it)).

Enaip TFL is one of the local branches which operates in Tuscany ([www.enaip.toscana.it](http://www.enaip.toscana.it)).

It is a consortium of Associations, Private Companies and Cooperatives active in Vocational Education and Training (VET).

Enaip TFL offers a range of services addressed to Public Authorities; Training Agencies; Schools; Enterprises in the framework of education and training, particularly focused on the use of innovative technologies and methodologies in the perspective of the Lifelong Learning Programme.

### Main areas

#### Education:

- *providing integrated services in order to strengthen the links between School Education and the World of work;*
- *improving qualification of adult people through formal and informal education and the validation, transfer and recognition of competences;*
- *developing new methodologies to increase learner's motivation using interactive and multimedia tools.*

#### Social Area:

- *integrating groups with particular difficulties on the Labour Market such as drop-outs, low skilled workers, disadvantaged people, immigrants and those with a migrant background and ethnic minorities, by developing their work-related skills and competences.*

#### Public Authority :

- *creating a European network of best practices in the Public Administration.*
- *offering continued training (distance and face to face) customised to Public Authorities.*

#### Business Area :

- *providing initial and continued training for enterprises, often based on innovative learning methodologies and additional services such as job counselling and guidance.*

Since 1998 Enaip TFL has been developing activities in the field of Innovation and Communication Technology (ICT) financed by the Regional government, the National Ministry of Labour and the European e-Learning Programme.

Thanks to this experience Enaip TFL staff can provide the competences and the skills needed to work in a learning community in the field of e-learning, e-governance and e-inclusion, in collaboration with the Education Institutions, Public Administrations and Third Sector.

Enaip TFL is currently involved in several pilot projects about Digital Democracy Participation, Open and Distance Learning (ODL), Adult Blended Learning Pathways.

Enaip TFL is Quality System Certificated ISO 9001:2000
